Sleep

Sleep is nature's rebuilding period, when the energy used by the brain, muscles and organs is renewed. If you lose sleep, your system is robbed of the strength sleep should give. Continued loss of sleep multiplies this loss until you become a physical wreck. Dr. Miles' Nervine quiets the irritated nerves and brings refreshing, invigorating sleep. Nervine contains no opiates, and therefor leaves no bad after-effects.

WILL GO AHEAD WITH STATE BASEBALL LEAGUE

Whether the proposed Intermountain league is a go or not there will be a state ball league, like the one in operation last year, only it will be better and stronger. There was a meeting yesterday afternoon of the league officials at which it was decided to go shead with the deague no matter what other promoters did.

That there is considerable interest taken in the plans was shown by the fact that applications from Park City, Garfield, Lagoon and Wandamere for franchises were received but no definite action was taken. Manager McClellan of the Wandamere was present and stated that plans were under way to build a handsome baseball park and that the team was anxious to get into the league.

The correspondence urging Kentucky's claims is voluminous and does credit to the state's hospitality and manifold attractions. Detailed routes showing the mileage, cities and condition of the roads between St. Louis and Louisville have been sent in to show that this section would be ideal for touring. Chicago, of course, has left no stone inturned to induce Chairman Hower to nake that the starting point of the tour. The Chicago Motor club, the automobile oncerns in and about the city, the varius newspapers and influential motorists cenerally have been urging the selection of that city as the only proper starting point for what will probably be the argest tour as well as the longest in the listory of the Glidden tour.
